## Find the Perfect Chair for the Job.

Choose the style and ergonomic features that fit how you want to work—consider pneumatic seat adjustment, tilt controls, back and arm adjustment features.

### Pneumatic Seat Height Adjustment

Adjusts height of chair relative to floor.

### Back Height Adjustment

Positions lumbar support within a fixed range.

### Seat Depth Adjustment

Positions chair back relative to seat.

### Tilt

Positions the pivot directly above center of chair base. Tension-control knob controls rate and ease of recline.

### Seat Synchro-Tilt

Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

### Knee Tilt

Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

### Multitask Control

Adjusts seat and back angles independently with a single lever (infinite locking within a fixed range).

### Posture Mechanism/Lock

Back adjusts independently of seat and can be locked in an infinite number of positions.
